

INVITATION

www.798artzone.nl

Dear Friends and Colleagues,

We are happy to invite you to the 798 China Art Zone Exhibition on September 21, 2015
at the City Hall The Hague

The 798-district in Beijing is the first and largest creative cluster in China. In the 1950s it was an industrial park. During the Deng Xiaopings reforms the factories that produced military and civilian hardware lost state support and became obsolete around the millennium turn. During the 1980s the vacant buildings began to attract artist communities and finally became the teeming hotbed of Beijing's avant-garde. The numerical name 798 was actually one of the first buildings in the complex being used to host the first Exhibition. Nowadays the complete district is the art centre of Beijing, crowded every day with art lovers and tourists from all over the world. It is the best centre in the world nowadays to enjoy the full spectrum of China's Contemporary art.

It is a unique opportunity to visit the 798-exhibition in The Netherlands and to enjoy the showcasing of internationally reputed Chinese artists.

Please register by sending an email to info@vnc-china.nl as soon as possible as there is a limited space.

We are looking forward to seeing you on September 21!

With kind regards,

Niek Meijer
Chairman VNC
