Q14: The daughter also needs to write to her teacher or to the school. It like the question above, it's about selecting version with the appropriate level of politeness, etc. It's not difficult to identify the ones that don't fit if you carefully scrutinize the greeting & salutation as a first step, and then if that's not enough, the text itself. In both of these types of questions, also look at the instructions which set up the scenario for further clues (i.e. whether the full name of the principal/teacher is mentioned or if they are referred to as "Dhr.
